IN-OFFICE SOLUTION

Single-Appointment Restorations

Made Simple

LEARN MORE: www.glidewell.io | 844-949-7184

Connect. Create. Collaborate.

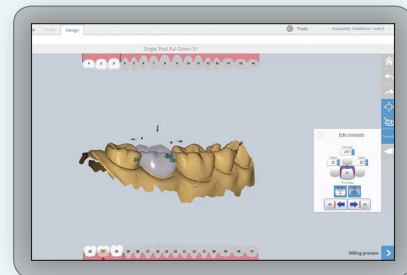

- ▶ *The glidewell.io™ In-Office Solution is the simplest way to prescribe, create and deliver authentic BruxZir® Solid Zirconia restorations in a single appointment right in the dental practice.*
- ▶ *On a patient-by-patient basis, choose between creating and delivering restorations in office or prescribing through Glidewell Laboratories.*
- ▶ *This high-performance solution leverages artificial intelligence informed by millions of cases completed at Glidewell Laboratories to streamline the user experience.*

One-appointment restorations are made simple with the power of the glidewell.io Solution. This state-of-the-art toolset empowers clinicians by enhancing their everyday treatment options, providing both the ability to create restorations in the dental practice and a direct portal to the laboratory team at Glidewell Dental. Design and mill, find on-demand support, and send cases to the lab — all from a single interface.

scan

The iTero Element® Intraoral Scanner from Align Technology, Inc., features certified connectivity with the glidewell.io Solution and offers an intuitive scanning experience that generates high-precision impressions.

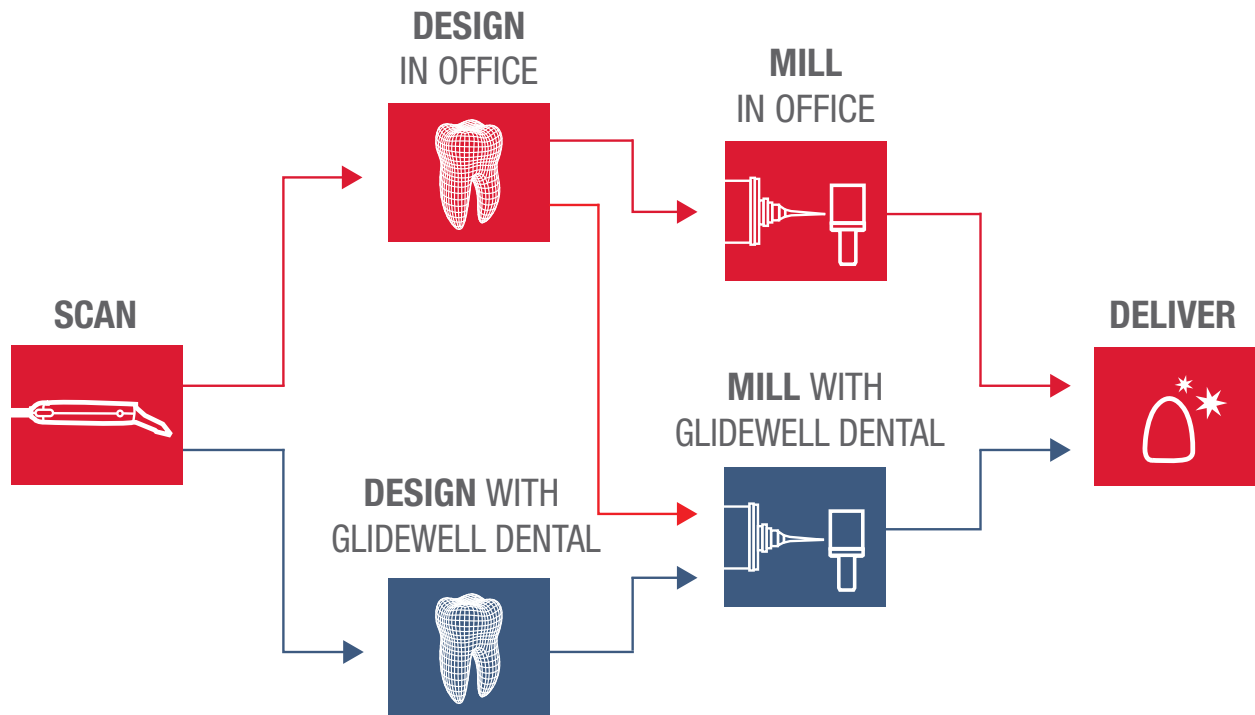

fastdesign.io™

The fastdesign.io™ Software streamlines the overall crown design process by using data from millions of cases completed at Glidewell Laboratories.

- ▶ *Intuitive, step-by-step restoration design*
- ▶ *Manage your digital caseload from this easy-to-use portal*
- ▶ *Swift design process limits time spent away from patients*

glidewell.io Gives You Freedom of Choice

fastmill.io™

The fastmill.io™ In-Office Unit swiftly mills sintered zirconia and other beneficial restorative materials right in the dental practice.

- ▶ Produces restorations with superior fit and precise margins
- ▶ Electric-powered: No air compressor required
- ▶ Manufactured in the U.S. by Glidewell Dental

(Optional glidewell.io component)

finalstage.io™

An optional component of the glidewell.io Solution, the finalstage.io™ Ceramic Oven gives you the power to finalize lithium silicate ceramic restorations.

- ▶ Crystalize Obsidian® lithium silicate ceramic
- ▶ Not needed for fully sintered BruxZir® zirconia
- ▶ Preprogrammed with cycles for your favorite materials

Create Restorations **Right in Your Practice**

BruxZir® NOW

“The Strength You Trust”

- ▶ **The only fully sintered zirconia for in-office use**
- ▶ Popular for posterior crowns demanding maximum strength
- ▶ Mill in under **40 minutes***
- ▶ Built on a successful legacy of 14 million BruxZir® restorations

Obsidian® LITHIUM SILICATE CERAMIC

“The Esthetics You Demand”

- ▶ Monolithic glass-ceramic material with translucency similar to natural dentition
- ▶ Popular for single crowns in the esthetic zone
- ▶ Mill in under **20 minutes***
- ▶ Easy delivery, choose from bonding or cementing

CAMouflage® NOW

“The Speed You Desire”

- ▶ Quick, versatile composite restoration for permanent and temporary applications
- ▶ Popular for inlays, onlays and full-coverage crowns
- ▶ Mill in under **10 minutes***
- ▶ Easy finish; with high gloss retention over time

BioTemps® NOW

“The Temporary You Admire”

- ▶ Affordable PMMA material designed for esthetic, in-office-milled temporaries
- ▶ Popular for provisional inlays, onlays and full-coverage crowns
- ▶ Mill in under **10 minutes***
- ▶ Use BioTemps® NOW to let patients preview the final results

**Milling times vary based on prescription.*
